

A red-tinted photograph of an office interior. The scene features a brick wall, a window with a grid pattern, and a desk with two chairs. A single red light fixture is visible on the ceiling. The overall atmosphere is modern and professional.

JOOXTER

Joining people and workplaces.

www.jooxter.com

Jooxter is a service that creates an efficient work environment for you and your colleagues.

Benefits

Optimise space

- Understand space utilisation based on movement of people within buildings.
- Maximise space occupancy.

Save time

- Find suitable places to meet or work.
- Find people according to name or profession.

Increase people's satisfaction

- Never get lost, find your way anytime, anywhere.

Via autonomous sensors, the Jooxter app tells you and your colleagues where the best place to meet and work is.

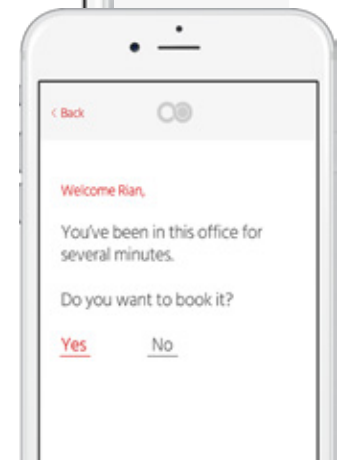

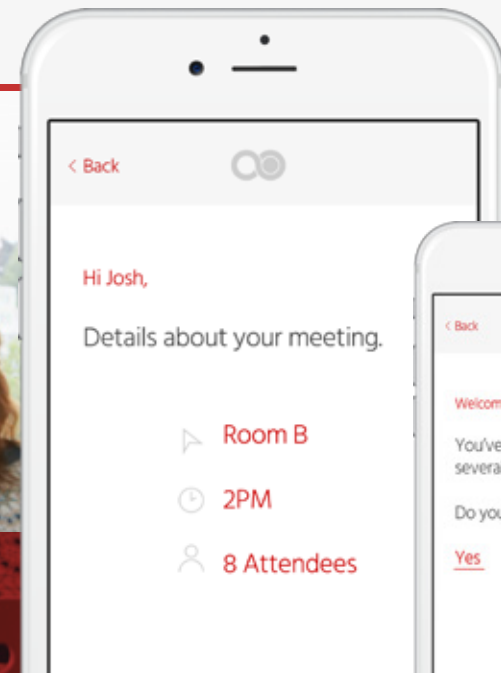

How it works

1 Jooxter's sensors are placed in specific sites such as offices, meeting rooms and corridors.

2 Your smartphone receives proximity signals from Jooxter's sensors.

3 Jooxter's smartphone app sends proximity data to cloud servers.

4 Jooxter's algorithms provide you with real-time services and analytics.

Key features

- Get a **full overview** of your workplace by finding any colleagues and spaces.
- Receive **booking recommendations** based on rooms near you that are or will be available.
- Be informed of how busy a room is and get **predictions** for the future.
- Know exactly where you are and receive **directions** on how to get to your meeting.

Why is Jooxter the best solution?

- Make the most of your workplace: Jooxter **improves space occupancy** rates by at least 20%.
- **Easy** installation. No cabling required.
- **Adaptable** to any building, no matter the size of the organisation.
- Jooxter can be **plugged** into another mobile app or **integrated** with any enterprise calendar.
